ROSTER CREATION

Each player will be allowed to spend up to 1.1 million gold to create their team.

Each player should bring two copies of their team roster with them. One to hand in to the organisers on the morning and another to show your opponent if needed.

The format is resurrection; no casualties, gold or SPP's will be gained between each round - rosters will be reset after each game.

Teams must consist of between 11-16 players for their starting line up.

Coaches may purchase Star Players for their team but they do not count towards the minimum number of players for starting line-up. Journeymen are not allowed.

Players can buy re-rolls, fan factor, an apothecary, assistant coaches and cheerleaders in the normal way as per roster creation. These are a permanent part of your roster and will be reset after each game.

Players may purchase the following inducements for their team:
